INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/013183

A. CLASSIFIC Int.Cl7	ATION OF SUBJECT MATTER A61K39/395, A61P35/00, G01N3	3/574, 33/543, C07K16/1	8		
According to International Patent Classification (IPC) or to both national classification and IPC					
B. FIELDS SEARCHED					
Minimum documentation searched (classification system followed by classification symbols) Int.Cl ⁷ A61K39/395, A61P35/00, G01N33/574, 33/543, C07K16/18					
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched .					
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) CA (STN), MEDLINE (STN)					
C. DOCUMEN	ITS CONSIDERED TO BE RELEVANT				
Category*	Citation of document, with indication, where ap	ppropriate, of the relevant passages	Relevant to claim No.		
Y	,	maceutical Co., 2004030699 A 2003-507268 A	1-11		
Y	Database Medline on STN, Rosi Heparan sulphate proteoglycar human primary liver tumors, of Pathology, 1998, Vol.185, No. 297, abstract, Medline Access	n expression in Journal of .3, pages 290 to	1-11		
	cuments are listed in the continuation of Box C.	See patent family annex.			
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "C" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means document published prior to the international filing date but later than the priority date claimed "E" later document published after the international filing date and not in conflict with the application but cited to use the principle or theory underlying the invention of considered novel or cannot be considered to involve a step when the document of particular relevance; the claimed invention of considered to involve an inventive step when the document of particular relevance; the claimed invention of considered to involve and the principle or theory underlying the invention of considered novel or cannot be considered to involve and step when the document of particular relevance; the claimed invention of considered to involve and the principle or theory underlying the invention of considered novel or cannot be considered to involve and the principle or theory underlying the invention of considered novel or cannot be considered to involve and the principle or theory underlying the invention of considered novel or cannot be considered to involve and the principle or theory underlying the invention of considered novel or cannot be considered to involve and the principle or theory underlying the invention of considered novel or cannot be cons		ation but cited to understand invention cannot be dered to involve an inventive claimed invention cannot be step when the document is documents, such combination e art			
Date of the actual completion of the international search 12 November, 2004 (12.11.04)		Date of mailing of the international search report 30 November, 2004 (30.11.04)			
Name and mailing address of the ISA/ Japanese Patent Office		Authorized officer

INTERNATIONAL SEARCH REPORT

Form PCT/ISA/210 (extra sheet) (January 2004)

International application No.

PCT/JP2004/013183 Continuation of Box No.II-1 of continuation of first sheet(2) of the PCT and Rule 39.1(iv) of the Regulations under the PCT, to search.

INTERNATIONAL SEARCH REPORT

International application No. PCT/JP2004/013183

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons: 1. Claims Nos.: 12-13 because they relate to subject matter not required to be searched by this Authority, namely: The inventions as set forth in claims 12 to 13 pertain to methods for treatment of the human body by therapy and diagnostic methods and thus relate to a subject matter which this International Searching Authority is not required, under the provisions of Article 17(2)(a)(i) (continued to extra sheet.) Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
 As all required additional search fees were timely paid by the applicant, this international search report covers all searchable
claims. 2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee. 3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.
